Each of the cards consists of different character and few limited features. You should put cards in the arena and wait your opponent to do similar things. After that, your card will fight the enemy. Remember that there is a struggle between signs of cards. Strong card will win the game then you can get more reward. You can increase your card ability through energy cards to increase your attack level. As you know, this type of attack will cause high damage to your opponent. You have some modes for this game. Firstly, the player plays against the system. The main goal is to win the match and then get more reward and cards. This is a good start for beginners before you challenge another player. This game uses internet connection, so the challenge mode is suitable to get more decks of cards from other players. After winning, the opponent should give cards to the winner as a prize. Pokemon TCG Online for Android is also possible to trade between one to others. You can have several cards and want to trade with different. Trading requires transaction and good way to increase tire skills. This game looks simple, but not easy to play. You need strategy to win and know the card ability is the best method to win. Another mode is the theme mode where the match is based on specific You can get more cards from theme to put at your disposal. This is also part of the strategy to win the game. After winning several matches, you will get a ticket to participate in the tournament and players compete each other's to reach the top level. The graphics are very vivid on smartphone mode. Some backgrounds provide interactive looks to enjoy the game in the end. Advantages: There are several decks and cards. It offers interesting gameplay and interactive graphics. You can interact with other players. Cons: You may need time to learn many cards. How to play as mentioned above, Pokémon is global brand and franchise. You can recognize some popular characters from Pokémon. But this game has many cards with unique character and ability. In the first step, you may need to learn the basic way to draw the right card and set the right decks of cards. This is not easy game to play, so time is very valuable to invest for learning. It is better to improve one theme of the card as specialization. For example, you have all items, but still need to improve one specific item to increase the probability of winning. After one item is at the top level, start doing the same for others. This is a good way to reach the top player position.
